MR. HARRY MADDERN

WE, THE CLASS OF 1937,
DEDICATE THIS, OUR YEAR BOOK,
TO THE MUTUAL FRIEND AND
GUIDE KNOWN TO ALL
OF US AS
"HARRY"
THE PHYSICAL AND MENTAL
HEALTH WHICH YOU HELPED TO FOSTER
WILL MAKE US EVER CONSCIOUS
OF THE DEBT OF GRATITUDE
WE OWE YOU,
MR. HARRY MADDERN

MR. JOSEPH S. KEATING

To our Superintendent, Mr. Joseph S. Keating, we, the class of 1937, extend our deepest appreciation for his patient and consistent guidance throughout all our years of schooling. We feel sure that the interest he has shown in regard to all our activities during these fourteen years of our school life, will greatly aid us in obtaining a better hold and a better view on life; and we know his faithful care of us will never be forgotten.

MR. ARTHUR E. BURKE

It was through the careful guidance of Mr. Burke, our leader for the four years of our high school career and his sincere interest in us, that we, the class of 1937, were able to attain the heights which we have. Surely we all feel that he has been more of a father than a Principal to us, one and all, and we acknowledge this relationship with sincere and grateful thanks.

MISS OLIVE LITTLE

We'll always remember you as a true friend,
Our guide who cared for us these short four years;
Your help, your love, your kindliness,
Your sympathy and deep understanding,
Have served as a golden staff in our hands
To steady our weak steps in facing this parting.

— THE — CLASS HISTORY

By NELLIE WOZNIAK

It was a warm summer afternoon on the first Wednesday of September in 1933, Anno Domini, when the old, ivy-covered edifice of the Turners Falls High School flung open its doors to the illustrious class of 1937. As I remember, we, to the number of 140 freshmen, bravely found our way to our home rooms 1, 2 and 3, which the seniors had already occupied that morning. We were eager to learn our new surroundings, of course. No sooner had we opened our desks, when lo! and behold! we saw that they were filled with books, papers, and notes (welcoming the freshmen).....and so it was that we poor freshmen had little or no room to ourselves. We were pioneers in new surroundings,.....the first class to attend school in the afternoon, because of overcrowded conditions in the high school. Naturally, we had difficulties.....we did not see our brethren of the upperclasses, we had to study under artificial light.....but worst of all, since our session lasted from one o'clock to five in the afternoon, we were losing one hour of school every day. But even these handicaps did not prevent us from being an illustrious class.

The first to recognize our greatness were the seniors, the good old class of 1934 (God bless them) who held a dance in our honor. It was so much fun for us freshmen....in this going through the receiving line and attempting, for the first time to dance. Almost everyone else wore evening clothes, as I recall; and we freshmen were very grateful for getting our first taste of society. As for the seniors, they too, were satisfied....all but for the fact that those who had freshmen for dancing partners complained of aching toes later.

But in the opinion of our Principal, we had made a good impression, for two months later, he allowed us to hold a dance by ourselves. Almost all of the freshmen came then. It was not a very formal affair; but even the shyest joined the happy crowd and danced as well as he could.

The fall we entered high school, "The Netop," our school publication was first issued as a newspaper under the guidance of Miss Welcome Ayer. This paper was greatly appreciated by us freshmen, because it was practically the only link joining us with the upper classmen. I remember how thrilled we used to be to see our names in print.... and, in fact we were willing to do almost anything to get this publicity.

Oh,....as freshmen, we had ever so many privileges, which those before us had not had. For instance, there was the N. R. A. parade that breezy November afternoon in 1933....which to us meant a holiday from school. Then, since we were a class apart, separated from the rest of the student body, we had the privilege of organizing our own clubs, our own freshman five-piece orchestra, and best of all, of putting on our own holiday programs in the assembly. Here, the freshmen received their training as leaders and as speakers.

So it was....for ten short months we led this wonderful school life, then we were all transferred to the sophomore class....much to our dismay.

As sophomores, one of the first things we did was to choose our class leaders, and they still remain....loyal and faithful as ever....President, Edward Putala; Vice-president, Frank Bush; Secretary, Rosalie Beaubien; and Treasurer, Dorothy Rau. Miss Olive Little has been our helpful adviser and class teacher. Shortly after the elections came our Sophomore Hop.... a very beautiful affair. All the class officers were in the receiving line, to represent our class. The girls looked dainty in their evening gowns, and the boys appeared to dance with much more grace than they had a year ago.

In view of the fact that our sophomore year was not full of various activities, we had time to select our class rings, also. Our rings are very beautiful, and they will always bring back to our minds our glorious high school days, many many years from now.

Thus passed our sophomore year. In spite of the fact that we were a studious class, we looked forward eagerly to our vacation....and goodness knows we needed it; for as juniors, we were to be very busy in our work, as well as in the extra-curricula activities. The students of the commercial course awaited this year eagerly, for they were to begin those two much liked subjects, shorthand and typewriting.

As for the college preparatory students, they were to have a more difficult time, especially those who did not welcome whole-heartedly the theories of Cavaliari and Euclid in geometry. But then, the thoughts of this unpleasant and boring school work were offset by thoughts of the two great events of the year.... Junior Prom and the Prize Speaking Contest.

In preparation for these two occasions we spent many long months. How shall we ever forget those many long weeks of drilling in public speaking....and we still shake when we think of the impromptu speeches we had to make. When Prize-Speaking time came around, about one-half of our whole class of approximately one-hundred scholars tried out. Eight lucky boys and girls were selected as winners.. three cheers for them....who labored loud and long under Miss Teed's direction for the final contest, which took place in May. Ay-we remember what a drizzly night it was outdoors; but indoors, inside the auditorium, we felt very cheerful, for our prize-speakers, who by the way, were Rosalie Beaubien, Frank Bush, Rose Solomon, Paul Shumway, Norma Grogan, Cecelia Carme, Harold Sears, and Robert Leary, brightened up the atmosphere with their lovely presentations. Rose Solomon won first prize that night; Norma Grogan came second, and Harold Sears third.

Junior Prom was a gala affair. Our class had the honor of being the last class to hold its prom in the Hibernian Hall. Our class artists spent many hours in designing panels and making flowers to transform with these decorations the hall into a beautiful ballroom. Our prom was a great success....those melodic strains of Johnny Newton's orchestra; the cheerful air about the places; the graceful waltzers, the colorful pageant of evening gowns....are now a memory, but a memory forever. Thus the two great events in our school calendar passed by, and we were awaiting eagerly our summer vacation to catch our breath again.

Last fall, we all returned to school as seniors; but we didn't return to the same high school as our predecessors had. Our high school at this time was far grander....for it had been enlarged. Eight new rooms were added, and a new gymnasium and auditorium were being built. The gymnasium was finished during the winter and was available for games during the latter part of the basketball season. The first game played here was with Greenfield High School. Our boys spent many long hours practicing in this gymnasium, and the fine result was shown at the Basketball Tournament at Massachusetts State College, where for the first time since our class was in high school, our basketball team won the preliminary game, and lost the finals by only two points. The two outstanding athletes in this game were Frankie Bush and Charlie Gloski.

When the auditorium was built, our class of '37 had the unique honor of being the first to hold its class dramatic performance there, when on April 30 it put on a truly splendid performance of Shakespeare's "As You Like It." Never in the history of our high school had such a difficult play been attempted....but our class did it. All of the actors did splendid work for which we give them each a laurel. Rose Solomon and Norma Grogan were the leading ladies; they played the parts of Rosalind and Celia, respectively; while Robert Leary portrayed Shakespeare's most perfect lover, Orlando.

Thus we were nearing the end of our high school days....joyous, cheerful, because we were an illustrious class indeed. Last month, Rose Solomon added to our fame and glory. Rose, whom we all know is a promising actress represented our school, our town, and our state in a National Speech Tournament in Jacksonville, Illinois, with her dramatic selection "St. Joan" by George Bernard Shaw.

And now, classmates, the end of our high school days has come. Yes, in this high school, we have spent many happy as well as laborious days. Here we have gained for ourselves the reputation of an illustrious class, and to be sure we shall do all in our power to uphold this name when our dear Alma Mater will no longer guide us.

1937 CLASS PROPHECY

By
ABBIE BURNHAM ALICE KULCH
FREDERICK SULLIVAN, JR.

Place: An airport on top of a building in New York City where part of the class of '37 are assembled, ready to fly to Mars for a reunion at Edward Putala's summer residence. The plane weighs about 300 tons, having a dance floor, a separate dining hall, and other accommodations for 150 people.

Purser—Leonard Thornton— "All aboard, all aboard for the trip to Mars."

Gillette— "Purser, mark off the names of those going on the trip and assign them all separate suites."

The people all get on board ship. Then Captain Gillette gives his ship the gun and off they go at a 1500 mile an hour clip.

To relieve the boredom of the trip Ruth Milkey, a Swingette, goes forward and gives a demonstration of a new tap dance, called the "Wooly Bushy." She apologizes for the absence of Harriet Samoriski, Mary Annear, Myrtle Covey, Marjorie Buckmaster, and Antoinette Banash, who do all sorts of things as entertainers.

Paul Nadeau, who has graduated from crooning to grand opera, comes in and starts singing, "O! My Heart Throbs", but Charles Gloski the official bouncer, throws him down the laundry shute.

A radio is turned on and an official broadcast is heard.

Now ladies and gentlemen, I present to you Robert Leary, (official news commentator for the Turners Falls Gazette), popularly called "Sniffen the News Trackster." Yes, that's me. The announcer got lost in the shuffle so I had to introduce myself. Flash! Albert Welch, big game hunter, has taken time off from his hunts in Greenland for Wittensillyophonduses to catch big game in Mars for Edward Bergiel, owner of the Freak Circus. Frank Bush, renowned animal trainer, subdues (the animals) with his Emma-line, the animals captured by Welch. Roy McCarthy, another explorer, hopes to put it all over Welch. Wouldn't it be grand if McCarthy should capture Welch in one of his ant buttons? I don't think there would be any more prized animal than Welch.

"I now turn you over to Kathleen Currie, the eminent cub reporter. Miss Currie."

"Thank you, Mr. Leary. Here's the story of the hour. Zurko, the outstanding man in science and winner of the Nobel Peace Prize for his invention of a powder for bald-headed men, known as "Girloff's-It-Will-Even-Come-Through-Concrete." What better advertisement could it have than the endorsement of Matthew Mucha who uses it every day. Use it and become a member of the House of David within three days. Now, I will leave you to the soothing—inharmonious—music from the symphony orchestra conducted by Paul Shumway and Marcel Hoynoski."

The sound of the music from the orchestra is lost in the pandemonium caused by Captain Gillette announcing, "First stop at number 1,675,037 hostel run by James Gunn. Secure your tickets for the Irish Free Stakes from Phyllis Griesbach. Those of you who have jumpy nerves better see Eugene Sopollec and secure some of his famous sleeping powder."

After a few hours of rest, the ship again gets under way and about ten million miles from the earth, they run into a storm. Mary Ptak, Rita Rivet, and Jennie Niedbala, stewardesses, help quiet the passengers. Telesphore Ryan and Marion McClary, stylists in Filene's, become frightened when they see the northern lights. A reading machine, invented by Helen Kruciewski and Catherine Jurgiliewicz, is used to quiet these two by taking

their minds off the raging elements in the universe. Many of the words have to be looked up in Sears' Dictionary, which has just come from the press.

Joe Kosewich, the biggest business man of all times, dictates a letter to Mary Zak, and sends it to Dorothy Winch, an explorer in Egypt. Miss Winch, with her assistants, Charles Noga and Chester Osowski, have discovered a pyrathograph belonging to the wind-bag class of instruments.

The motor begins to knock and Wissman sends in Eugene Staiger, assistant pilot, for the inventor of the plane, Henry Waidlich. The knock in the engines is abolished when Emil Golonka's mule power capsules are mixed with the gasoline.

Refreshments are now served with the milk coming from Sazama's Synthetic Milk Plant.

The girl passengers now play a game invented by Bernice Pervere and Evelyn Fisette, called "Volly-base-hocket-ball," in which a ring is used, being pushed by the thumb and index finger.

Margaret Cahill, a psychiatrist, has her hands full taking care of Earl Remillard, who has loosened a screw because of a gum famine.

For the entertainment of the guests, a twin act, starring Sally Dykes and Francis Burnham, is put on. These two, it is said, went to Rosalie Beaubien's school of charm before they began to perform professionally. Rose Solomon gives a dramatic sketch, written by Nellie Wozniak, and interpreted by Cecile Carme.

Frank Dobosz, a deep sea fisherman, picks up a Who's Who book, in an effort to find the names of his classmates. Howard Haskins has become a second Bob Feller. Elliott Moreau has trained his voice so that he is an idol of the ladies when he croons on the radio. Mary Bogusz has organized an escort bureau in New York. Those who are in her employ are Dorothy Rau, Jennie Niedwiecki, Beulah Brown, Helen Yukl, Philip Shanahan, Jennie Gozieski, Alice Kulch, Imelda Legere, Bernard Rosewarne, Norman Frigon, and Edward Ducharme.

When the passengers arrived on Mars, Stanley Kosloski and Anthony Kostrzewski conducted them through the palatial gardens. June Hillman, a famous painter, has already got out her brushes and busily starts painting a mountain from a mole-hill.

After a bountiful supper, Ruth Neipp gives a talk on her correspondence with foreigners. Helen Martin explains about her difficulties in decorating the interior of the plane and why she used a statue sculptured by Abbie Burnham. Edward Murphy and Charles Mathieu gives a debate on "Down With All Women." To top off the evening's entertainment a Shadow picture, directed by Norma Grogan, is shown.

To all you readers who are wondering who observed these happenings, we refer you to Stephen Siteman and his crystal, which he tells about his view of Yeats-Brown's stories.

CLASS ODE

By FRANK J. BUSH

Alma Mater, the parting draws near
We must turn the page of four years of cheer,
Though you taught us how to face a world
And to fight and win with colors unfurl'd,
You have not taught us how to say "Good-bye"
To our fostering mother, Turners High;
Though our eyes now shine with a hopeful gleam,
Ready to buffet the current of life's great stream,
Though we climb the rough road to a rugged height,
Our hearts are dreading this parting tonight.

Tonight we leave your ivy-clad walls,
To answer the summons of life's clear calls,
We carry high the torch you gave for the fray
Of eternal fire to light our long, dark way,
Your love and friendship and undying remembrance,
We take with us on our unfaltering ascendance,
That we may sing to you in one mighty choir
Not "Good-bye" but "Au revoir" is our desire.

FROM SENIOR PENS

ON WRITING POETRY

By FRANK BUSH

Have you ever said to yourself, "Who was this Bill Shakespeare, or John Milton, or Walt Whitman? Why, if I had the time, I could make those fellows look like hackneyed poets." But then when you find yourself alone, with plenty of time to waste, and then seriously try to write poetry, you find it an altogether different matter. Of course the first attempts really were laughable but you still got a big "kick" in seeing something in poetry of your own composition. If you tried to rhyme your verse you found it even harder. "Let me see. What rhymes with 'Myrtle'? Oh! Yes, 'Turtle.' But how can you compare Myrtle to a turtle. Oh! Well. Great poetry always makes one extend his imagination, so I guess this will do." No, it doesn't make much sense but that doesn't bother you. Poetry never makes sense. It really is only the feeling it gives you or the beauty of rhythmic words.

Then as you seem to get the knack of poetry writing (or shall I say when finally the music has inspired you) words flow from your pen with increasing ease. Now your stanzas develop with rapidity. Now they are marked by a deeper, more reflective thought. It is at this time when you forget your surroundings. You are on the magic carpet and all the realms of imagination are at your command and access. You are an ethereal minstrel or a fairy, or some magician. The Muses enchant you.

Then your bubble is pricked and you find yourself back in a crowded school room. A look of despair veils your face as you find yourself in Study Hall, Room 16, and your desk piled with scrap paper. You find yourself the center of attention. Everyone seems to be laughing. Then a friend returns a paper on which you had been writing (which he picked up from the floor) and as he gives it to you he says, "I'm proud to have made the acquaintance of William Shakespeare, the second." And then as the bell rings your face suddenly turns crimson, and you "meditate" that the matter with this younger generation is that they don't appreciate art.

THE SEA

By M. ANNEAR

Often I sit and watch the tide
As it goes out to sea
I watch 'til I can see no more
Then wonder where it can be.

The billowy waves goes dashing on
I know not what their goal
But just before they come again
They will have reached a shoal.

The gulls will hover near the sea
To catch their tiny prey
The fish care not for tide or sea
They swim around the bay.

A FIGHTING TROUT

By A. KOSTESKY

The fish were bitin' pretty good that day
When we were fishin' in the river, say!
Did you see the rainbow trout I caught,
And the way he took the bait, and fought?

I'd just thrown out my line, kerplunk!
And out of sight it took and sunk,
Then, there was a nice, hard pull,
And I sez to myself, "Jest keep cool."

I knew I'd have to play that trout,
He was twenty inches when I pulled him out.
Next day there was twenty men in that place,
But all they caught was a bunch of dace.

AS IT BREAKS

By HELEN MARTIN

A mass of clouds, dark and dreary,
The earth below, silent, eerie,
The wind seemed to wail, "Hurricane,"
When with a clash of thunder came the rain.

Came the rain and then the wind
Getting much stronger, making loud the din
Of the beat of raindrops on the walk
Falling so hard 'twas impossible talk.

It fell against the window pane
Beating, repeating its ominous refrain,
"Hurricane, hurricane, everybody hide!
Get to the safety of the house, inside."

So raged the storm all through the night
Though in the morning the streets were a sight,
Papers and leaves scattered here and there
But, oh how nice, was the clear smelling air.

Came the sun in all its glory,
Drying the wet walks, ending all worry,
True it was a glorious day,
Even the children were happy at play.

Strengthening, verifying that old refrain,
That is heard so much after the rain,
'Twas said by someone, I believe in fun
"After the rain, then comes the sun."

ON RECEIVING DIPLOMAS

By DOROTHY RAU

Arranged in a neat pile,
Are many thin blue objects shaped like books.
The solemn seniors file
Upon the stage with looks
That seem to say:
"We've won a mighty fray."

FIRESIDES

By ETHEL ZIMMERMAN

As I sit alone by the fireside
And watch the sparkling flame,
I think of the value of firesides,
And the thousands who feel the same.

The night may be cold and biting,
The wind may be sharp and hoarse,
But the fireside is bright and inviting,
With the heat that comes from its source

So let us always be thankful,
For a fire that's cheery and bright,
And let us always be grateful
To the one who gave us its light.

MAN AND HIS MONEY

By PHILIP SHANAHAN

The miser is poor with all his gold;
The happy man is rich without it,
The rich man's money has made him cold,
For many are the curses that come with gold.

ROOM TWENTY-THREE

By MARY PTAK

Have you heard of room twenty-three?
That's the room with the famous door
You shut it once and shut it twice,
But it always comes back for more.

Have you heard of the S.D.A.U.Y.G. Club?
That means, "Sit down and up you go."
It's the club with the most members in it
Where dues don't cost much "dough."

Have you heard of gum-chewing?
Well this is where it began,
Where wrinkles are chewed out of the gum,
No more famous sport in the land.

Did you ever hear a whisper?
'Cause if you did you know where it'll be
It's the big boys that strut down from
The back to sit in a front seat.

No other room would I so favor
If I were to return o'er the sea
I'll give you three guesses, ah! yes
It's that delightful room twenty-three.

DREAMS

By ALICE KULCH

By the rippling rollicking stream,
I sit idly and begin to dream,
Dreams of lands and seas afar
And I wonder where you are.

Are you sad, or are you gay,
What is it that you used to say?
Oh, yes! "Someday we shall again meet
And neither one will have met defeat."

And as I am dreaming of conquests great,
The stream rolls on and it's getting late.
I lazily rise and walk towards home,
And wish you'd come and cease to roam.

SPOKEN WORDS

By WILLIAM WISSMAN

Bitter words in anger spoken
Cause friendships to be broken,
A moment's pause to think
Cause friends a toast to drink.

SUMMARY

By MARGUERITE CAHILL

When I was a freshman, I felt meek and shy
Whenever a senior would pass me by.

When I was a sophomore, I thought I knew all
It didn't take long to stumble and fall.

When I was a junior, I whiled time away
Then studied like mad to make up for delay.

Now I'm a senior I feel awfully small
I know the world's not so small after all.

THE SOUL

By STEPHEN SITEMAN

"Brevity is the soul of wit."
I've said my say
So now I'll sit.

MY DESTINY

By ROSE SOLOMON

Life is just at the crossroads for me—
What shall it be?
What untraveled road must I take?
One leads to sublime happiness, I know
The other, is lonely with heartaches and woe.
One will bring the joy in life!
The other will bring me a soul in strife!
I know not what to do, nor which way is the turning.
My brain is in a turmoil, the fire in my heart's still burning
Oh God! Let me choose the right—
Let me choose the one that will bring the light!

JOURNEY IN THE NIGHT

By ABBIE BURNHAM

O'er meadow lands and woodland paths,
She glided in the night;
And over her the guardian moon
Shed its mellow light.

The shadows round about her closed,
But she felt no alarm;
For there was a mighty Power
Shielding her from harm.

WEATHER

By ROBERT GILLETTE

Wind and rain, sleet and snow,
Nature's toys to us below.
We curse the weather, cold or hot,
Blame the papers, right or wrong.
But nature laughs and sings her song.

A DREAMER

By NELLIE WOZNIAK

Sometimes my heart is in the Andes
And my mind is far away.
Sometimes I am on the Amazon,
Some days in Mandalay.

Sometimes, I hear the call of sea gulls . . .
I think I am on the sea.
Then I hear the jungles calling . . .
I feel happy, wild and free.

'Tis when I'm lonely, that I sing to my heart,
This song with joyous thrill.
"Rejoice, rejoice, for your dream ship is awaiting
To carry you where you will."

AS YOU LIKE IT

Playing before an over-capacity house, the Class of 1937 presented the annual senior play in the high school's new auditorium. The first Shakespearean production attempted in some years in this community met with great success. Miss Alice Teed of the English department deserves our sincere appreciation for the splendid training she has given us.

In this happiest of his comedies, Shakespeare took no trouble to avoid a touch of the fantastical and ideal. The realism lies in the gay, laughing feeling, the fresh woodland sentiment, and the high spirits that attend the escape from artificial city society.

For one reason or another all the characters get exiled, all meet in the Forest of Arden, where "as you like it" is the order of the day. There is the manly young Orlando (Robert Leary), his villainous elder brother Oliver (Paul Shumway), and their servant Adam (Abbie Burnham).

At court is the reigning Duke Frederick (Harold Sears), his daughter Celia (Norma Grogan), her cousin Rosalind (Rose Solomon), and the clown Touchstone (Kathleen Currie).

In the forest the banished father of Rosalind, Duke Senior (Edward Putala), and the melancholy Jacques (Stephen Siteman), and other lords (James Gunn, Edmund Olchowski), who are tanned with sun and wind chasing the dappled deer under the greenwood tree; the table loaded with the juicy roast of venison, and long idle summer hours of leisurely living.

On the outskirts of the forest are shepherd swains and lasses,—old Corin (Imelda Legere), Silvius (Marion McClary), in love with Phebe (Phyllis Griesbach), and the wench Audrey (Evelyn Fisette), with whom William (Albert Welch) is in love.

Orland has had to fly from his murderous brother. Rosalind has been banished from the court by her uncle, and she and Celia, disguised as shepherds, have slipped away with Touchstone. Now Rosalind has become deeply in love with Orlando since she first saw him overcome the Duke's wrestler (Francis Burnham), and he is equally in love with her. She is a young maid, tall, strong, rustically clad in rough forest garments, possessing a constant flow of cheerful spirits, a humor of the freshest and kindliest. Touchstone is a fellow of twinkling eye and dry and caustic wit, his face as solemn as a churchyard while his hearers are all agrin. He and Jacques look on life with a cynical glance. Jacques is pleased when things run counter to other people, but is, after all, not so bad as he tries to be.

Like a series of revolving views, scene after scene is glimpsed through the forest glades—here the forester lords singing, and bearing the antlers of the deer; there lovesick Orlando carving verses on the bark of trees, or rescuing his brother from the lion.

The youth Ganymede (really Rosalind) pretends she can cure Orlando of his lovesickness by teaching him to woo him as if he were Rosalind, all of which makes a pretty pastoral picture.

Then Touchstone passes by, leading by the hand the captive of his spear, Audrey, who has never heard of poetry; or in another part of the woodland he is busy mystifying the shepherd Corin. Ganymede gets the heartless coquette, Phebe, to promise that if she ever refuses to wed him, she will wed her scorned admirer, Silvius, and makes her father promise to give Rosalind to Orland; then retires and comes back in her own garments as Rosalind.

The play ends with the four couples being married under the trees by Hymen (Rosalie Beaubien), and a colorful dancing scene.

PRO MERITO

The Pro Merito Society, composed of students who have achieved an average grade of "B" or more in four years of study, had fifteen members during the past year. This number is 15.8% of the senior class and is an increase of six over the membership of this school in the first Pro Merito Society of 1917. In the past year there were two meetings, one at Greenfield and the second at Drury in North Adams, where representatives of various schools of Western Massachusetts gathered and discussed the activities of their respective Society. Persons who are awarded Pro Merito Membership are exempt from the College Board Examinations if they wish to further their education in a higher institution of learning. Let us take a glimpse into the history of the Pro Merito Society.

Some time before the spring of 1917, the subject of finding a suitable way to show honor to students of high scholastic rank came up for discussion before the Headmasters' Club of Western Massachusetts. Many principals took part in this discussion, but the leader, the man who persisted in bringing up the subject at every opportunity until something was done about it, was Dr. H. H. Gadsby, Principal of the Drury High School of North Adams. Finally, in the spring of 1917 the members decided to form an honor society to be known as the Pro Merito Society. All students of good character who had made a general scholastic average of 85% through the first three years of high school were eligible for membership in the Pro Merito Society

Accordingly, in the spring of 1917, twenty-three principals organized chapters of the Society in their schools. It had been agreed that the chapter in North Adams would serve as a central headquarters for the new organization, and each chapter sent regularly to the North Adams chapter lists of members to be filed for permanent record. A total of 173 names of members were recorded from the twenty-three chapters in the spring of 1917.

The following schools in Franklin County formed Pro Merito Societies in 1917:

Arms Academy	James W. Vose	7
Greenfield	John V. Jewett	7
New Salem Academy	L. R. Borodeck	1

COMMERCIAL CLUB

The Commercial Club has gradually become one of the prominent clubs of the school. The club is directed by Miss Marion Packard, with the aid of Miss Little and Miss Shea. All students who are juniors or seniors and who take stenography or typewriting as subjects, are eligible to belong.

This year the club has had many good times. At these meetings the members use some of the time to talk of the advantages of commercial work and how to go about obtaining a position. The club tries to get some neighboring school to visit at least once a year.

One of the things that each member looks forward to is a trip to the new court house during high court. This is always a grand adventure. Besides these they have parties and dances. Last year a dance was held in the old auditorium and the proceeds went to the club treasury. Then parties were held on Hallowe'en, Christmas, St. Valentine's Day, and other holidays. During the winter they went on skating parties or sleigh rides.

This year they had a scavenger hunt as an initiation party to the new members. If at the end of the year, there is quite a large amount in the club treasury, the members are planning to buy dictation records or other equipment that will help the progress of the commercial work in this high school.

We consider this one of the major clubs of the school and every commercial student looks forward to becoming one of its members. These outside activities make the commercial course much more interesting.

FRENCH CLUB

The Cercle Francaise, under the leadership of Miss Florence Porter, has had a very successful year. It has been, more or less, an honorary club, to which only those junior and senior students, who have attained a mark of "B" or better in French can belong. Sophomores are eligible under the same conditions at the end of their first year of the study of French.

The purpose of the club is to get the students acquainted with the customs, and the people of France. The meetings are all conducted in the French language.

This year, the outstanding event of the French Club was the Christmas party, and the initiation of its new members. At every meeting there has been some form of entertainment, such as games, spelling contests, or French songs. The total membership of the club numbered fifty students. This year's officers have been: President, Phyllis Griesbach; Vice-president, Harold Fugere; Secretary, Sally Dykes; and Treasurer, Kathleen Garneau.

The class of 1937 desires to leave its wishes for much success in years to come with the Cercle Francaise.

GERMAN CLUB

The German Club of the Turners Falls High School is now a permanent part of the school. After two years of hardships and disappointments, the club has finally anchored itself in smooth waters. A majority of the students who study the German language are members of the club. This proves that the programs must be interesting and the benefit gained by attending the meetings must be worthwhile.

Most of the credit goes to Mr. Carl Walz, the club's adviser. He has guided the destinies of the club since its inauguration in 1934.

James Gunn, Jr., was the president this year. Meetings were held regularly in the high school.

Let us hope that the students of the future will patronize the German Club and then the work of the first few years will not have been in vain.

With Mary Bogusz as president and Mr. Earl Lorden as adviser, the Stamp Club has had a very successful year.

Several new philatelists were started on the right road to successful stamp collecting. Meetings were held monthly, although Mr. Lorden had an inconvenient basketball schedule. During the meetings the members gave brief talks, Mr. Lorden explained the details of pre-cancels and finally many exchanges take place for the benefit of all. The members of the club wished to give an exhibition this spring but many difficulties were met, so the clubs in the future must carry out this plan. Next year we all hope the Turners Falls High School Stamp Club will have the largest enrollment ever.

In completing an undefeated schedule, the Turners Falls High School football team successfully defended the Western Massachusetts Championship it had won the previous year and as a result has annexed two legs on the Robert Flynn Trophy. The Powertowners undertook a difficult schedule, but with excellent material, fine team spirit, and great leadership emerged victorious in six engagements and fought to deadlocks in two other encounters. The annual Thanksgiving Day battle with Greenfield High was the season's classic, with the Blue and White outplaying the Taptowners on an icy field although it ended in a scoreless tie. The other draw was waged against a veteran Agawam eleven, while the victories were attained at the expense of Athol, Classical, Amherst, Trade, Technical, and Adams. This year's combine was one of the greatest to represent Turners Falls High on the gridiron and will leave behind with its remarkable and praiseworthy record, a cherished memory, full of excitement, thrills, color, cheers, spectacular plays, and touchdown passes or long runs. Much of the team's success is due to the able coaching of Mr. Lorden. We are proud of his work. May his coming season gain as much glory.

The only bright spots in a rather dismal basketball campaign were the grand and colorful opening of the new gymnasium and the worthy showing the team exhibited at Massachusetts State College They tripped Amherst in the first round, but lost the tourney final to Adams High in an overtime 17-15.

Eight games were won as against thirteen defeats, but the Indians never surrendered without a struggle. A green team reported to Coach Lorden at the beginning of the season and as the games rolled by, Mr. Lorden shaped them into a dangerous quintet. Their climax was reached in the tournament and their tourney games gave fans thrills which they will never forget. Victories were garnered from Orange, Amherst, Chicopee, Alumni, Gardner (two) and Deerfield (two) while contests were dropped to Chicopee, Commerce, Adams, and two each to Greenfield, Westfield, Tchnical, and Holyoke.

Third Row—Charles Bergiel, Stanley Kulch, Richard Stoughton.

Top Row—Mr. Burke, J. Sojka, E. Bergiel, Coach Lorden.

With a Western Massachusetts Baseball Championship to defend, the Indians have mowed down seven opponents in nine encounters to date. As the year book goes to press, the Powertowners were leading the Valley League with five victories, and no defeats. All the wins were pitched by that speed ball artist, Howie Haskins.

Coach Lorden had considerable rebuilding to do, since seven regulars from last year's pennant winners were lost, either by graduation or via the new Headmasters' ruling. A veteran keystone combination and catcher, however, eased his worries somewhat.

Victories were scored over Northampton (two), Holyoke, Chicopee, Greenfield, Athol, and Gardner, while two contests were dropped to Orange. If the Indians continue their success they will undoubtedly keep the laurels which they annexed in the season of 1936. Coach Lorden hopes that his boys can bring the Valley League leadership to Turners Falls in his first year of membership.

BOYS' TENNIS TEAM

Front Row—R. Corbett, K. Parsons, J. Foley, B. Cotton, E. Sicard.
Back Row—Coach Walz, T. Aitken.

This year found our Tennis Team becoming a member of the Valley League, and up to this writing our boys have fared well against all opposition. Coach Walz found himself surrounded by "rookies" at the start of the season, but most of the players had had experience before on the courts. As we go to press the tennis team has taken three successive engagements, overwhelming Athol and Chicopee, by 4-1 scores, and nosing out Greenfield by a 3-2 count.

Foley and Cotton have been the 1 and 2 men respectively, and aided by Parsons, Sicard, and Aiken, should form a formidable quintet for next year. With such a good start and with such a squad reporting as veteran material in another year, Coach Walz will elevate his Warriors to the best in the Valley League for two seasons.

TRACK TEAM

Lower Row—H. Sears, R. Bourdeau, M. Dion, G. Cadran, F. Bush, J. Woodin, N. Frigon.
Second Row—M. Campbell, J. Ladd, C. Gloski, M. Hoynoski, B. Vivier, B. Cotton
Third Row—E. Viencek, H. Boucher, J. Rozecki, W. Prohovich, J. Dolan.

Top Row—W. Beaubien, P. Nadeau, P. Shanahan, Mr. Sheff, Coach; M. Kulis, E. Welcome, R. Wattles.

The Track season has been one of ups and downs with much green material reporting for experience. At the annual Franklin County Fair, the Blue and White Wingmen overpowered Greenfield High 54½ to 52½ in one of the closest meets in history. In another eleven school meet at the Fair Grounds, the Indians finished eighth.

Coach Sheff, however, is not worried for he is building for next year with a bunch of sophomores, freshmen, and juniors. The Braves also participated in the Western Massachusetts High School Track Meet at Springfield, and the High School Relay at Massachusetts State College. Coach Sheff is wearing a wide smile these days, and is saying, "Watch us at the Fair, this year!"

DEED OF GIFT

(Continued from Page Forty-one)

We leave the title of the "Most Talkative Boy" for Edward Murphy, Henry Waidlich, and Frank Dobosz, to argue over.

To Charles Holewa, we give a free pass to any dance hall, anywhere in the United States, to be used at any time so that he will always be able to learn the latest dance steps.

A set of geometry problems, we give to James Fournier, so that he can always be kept out of mischief.

We leave to Albert Welch, a life-time seat in the front row at all Young People's Meetings, so that he will be able to hear every word that the President says.

To Robert Gillette, we give a mechanical robot who will put radios together again, as fast as Robert can take them apart.

Nellie Wozniak will leave her book of complete Latin Translations to all future Virgil students, in the hope that perhaps they will understand "The Aeneid," as easily as she does.

To Chester Osowski we give a contract for the biggest and best night club in Montague.

We leave to Raymond Laskowski, Edward Sicard, and Stanley Kozloski, a joint contract for all future Tarzan serials, to be produced in Richard Stoughton's studio, situated at 0000 Hollywood Boulevard.

To each of the following girls, we leave a full ounce of Stanley Zurko's priceless perfume and hope that they will use it sparingly. This treasure is awarded to Myrtle Covey, Marjorie Buckmaster, Evelyn Fisette, Helen Vlach, Anna Zink, Helen Martin, Jennie Darash, and Mary Sovecki. We are told that this perfume is guaranteed to make you glamorous though you may be toothless, sour, and sixty.

We leave a complete list, with telephone numbers attached, of all the eligible bachelors in Greenfield, to Mary Bogusz, and Mary Quinn.

To Eugene Steiger and Edward Bergiel, we give a pair of roller skates to take them wherever they would like to go.

Since he does so much traveling, we give to Leonard Thornton a pair of magic boots. A "whisk" and he's at Sylvia's, a "whoosh," and he's home again.

To Roy McCarthy we give a taxi meter, in order that he will be able to reap the profits of carrying around the "hill-bunch" in his Ford.

A needle and a long piece of thread, goes to James Gunn, so that he will always have a stitch on his side.

And now, with the hope that you will forgive us our wrongs, to the relief of all, we, the class of 1937, leave the school.
